# 3M™ Industrial Masking Tapes

Protect, mask, enhance or otherwise modify surfaces to improve the appearance, function or productivity of your products or processes, with our selection of Industrial Masking Tapes.

PRODUCTS SHEET

To get the job done right the first time, you need the right tools. That's why we offer a full line of industrial masking tapes to suit varying requirements and applications, including -

**Mask:** for painting or media blasting.

**Protect:** against marring & scratches.

**Splice:** paper or film.

**Stop Moisture**

**Colour Code:** mark or identify.

**Resist:** abrasion or flame.

**Quieten:** noise.

In this simplified line, you will find a range of characteristics such as adhesive holding power, line sharpness, and clean removal to meet different application requirements for virtually every industrial and consumer application.

**3M™ products also feature:**

- Instant adhesion at a touch.
- Paper tapes easy tear without stretching or pulling.
- Controlled unwind.
- Conformability to stretch and adhere around curves.

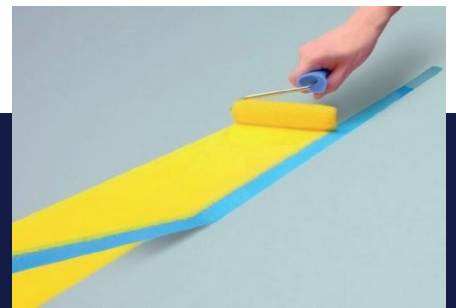

On the overleaf there is just a small selection of our most popular industrial masking tapes. We offer many more products within this range. If you have a requirement you would like to discuss please contact your Area Sales Manager or nearest branch.

light-duty attaching.

Quickly bundle parts.

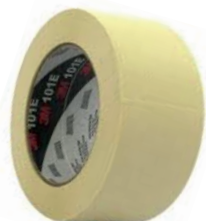

Professional paint masking.

## 3M™ General Purpose Masking Tape

# 101E

For general use and light duty applications

- Rubber adhesive
- Temperature resistant upto 30°C for 30 minutes
- Hand tearable
- Holding, bundling, packaging and masking in non critical applications

## 3M™ High Performance Masking Tape

# 3434

Popular for use in auto refinishing

- Maximum solvent and water resistance
- High temperature (110°C) resistance
- Good conformability
- Excellent sliver and edge tear resistance
- Hand tearable
- Excellent with water based paints, no need to re-mask if tape gets wet

## 3M™ Quality Masking Tape

# 201E

Ideal choice for reliable paint masking

- Cross linked rubber resin adhesive
- For bundling, masking, packaging, identification - can be written on
- Reliable in low temperature bake ovens up to 80°C
- Suitable for Infrared/ UV curing
- Good solvent and moisture resistance
- Hand tearable

## 3M™ Aqua Washi Tape

# 2899

Painters masking tape

- Thin flat flexible backing for consistently sharp paint edges on both curved and straight lines
- Easy hand tear
- Suitable for outdoor use up to 60 days
- Firm acrylic adhesive for easy removal
- Suitable for use up to 150°C for 1 hour

## 3M™ Performance Masking Tape

# 301E

All-Round Performance Masking

- Good Water & Solvent Resistance
- Ideal For Wet-Sanding Use
- Can withstand medium temperature bake ovens up to 100°C
- Suitable for Infrared/ UV curing
- Hand tearable

## 3M™ Polyester Tape

# 8991

Popular for powder coating applications

- High heat and chemical resistance
- High-strength backing resists shrinking, curling, tearing and edge lifting
- Thin backing leaves sharp, clean paint lines
- Removes without adhesive residue
- Available in rolls and pre-cut discs/ shapes, please ask for further details
- Temperature resistant up to 204°C
