Made to store

Ready to deliver

Packaging problems solved

Strength you can rely on

Not just your standard packaging tapes

In this simplified line, you will find a range of characteristics suited to general purpose package, envelope and box sealing.

3M™ packaging tapes in this selection also feature:

- Good performance in most temperatures, typically in shipping and storage environments
- Low noise for dispensing in busy work environments.
- Bonds to paper, card and recycled materials
- Abrasion, moisture and scuff resistance

On the overleaf there is just a small selection of our most popular packaging tapes. We offer many more products within this range. If you have a requirement you would like to discuss please contact your Area Sales Manager or nearest branch.

3M™8954 is abrasion and scuff resistant

3M™ general purpose box sealing

3M™ 309 low noise tape for busy environments

3M™ General Purpose Packaging Tape

371

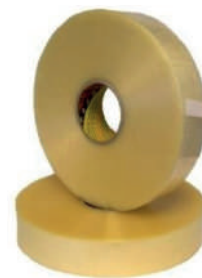

For general packing and box sealing applications
