tesa® Masking Tapes

tesa masking tapes are made to the highest quality for general purpose and precision masking.

PRODUCTS SHEET

tesa® offer a wide range of tapes for masking and protection for general paintwork, high temperature painting, powder coat and sand blasting requirements. Some of their main benefits and features are as follows -

Precision Masking:

Providing precise and flat paint edges. Ideal for applications where crisp sharp definition is required.

High Temperature

Resistance: Some of the range shows excellent performance at elevated temperatures.

No Adhesive

Residue: One piece removal. tesa® masking tape will not tear or leave residue even when left in place for weeks at a time.

Our tesa masking tapes provide suitable solutions no matter what your masking requirements.

tesa® masking tapes popular applications include:

- General masking applications.
- Light duty packaging, bundling, holding, sealing and fixing.
- Powder coating masking.

On the overleaf there is just a small selection of our most popular tesa® masking tapes. We offer many more products within this range. If you have a requirement you would like to discuss please contact your Area Sales Manager or nearest branch.

Outdoor Masking.

Large Area Masking.

Masking edges and curves..
